

THE TEAM BUILDING COURSE

Who is it for?

This course is recognised as a precursor to the Advanced Team Building Course¹ and is designed to give those identified as future or potential 'Team Leaders' a flavour of how to confidently adapt to a change in their roles and responsibilities. It is also suitable as refresher training for those returning to a Team Leading role or managers that are required to construct their own team.

What does it cover?

The session covers the following areas:

1. Team Exercise.
2. How Do Teams Work?
3. Natural Needs.
4. Natural Team Roles.
5. Briefing Techniques.
6. Team Exercises.
7. Discussion and Evaluation.

How long does it last?

This is usually a 2-day non-residential course, however, we would be happy to tailor the course to suit a residential programme.

Where will it take place?

The majority of the course material will be delivered in a 'classroom' environment usually within your place of work (non-residential); however, there will be at least two practical exercises that are conducted in a suitably identified outdoor area.

How much does it cost?

The Team Building Course fee is £250 if non-residential (not including VAT).

How many people will there be on my course?

To promote an environment conducive to inclusivity, the minimum/maximum numbers of delegates attending is 4/12.

Further Information.

Delegates with any special requirements are requested to notify their in-house Training Coordinator as soon as possible.

¹ The 'Advanced Team Building' course is a 4.5 day residential course designed to cater for outdoor activities, team profiling and additional subject matter. All of our courses can be tailored specifically to suit the needs of your organisation. Please see our website for further details.
